## ***FULL STACK DEVELOPER***

### **PROFESSIONAL SUMMARY:**

Initiative-taking developer with a keen sense of creativity and thinking outside the box. Ability to breakdown complex workflows into workable tasks while demonstrating the leadership skills to complete the tasks.

### **PROFESSIONAL SKILLS:**

Programming Languages:

- Java, Python, HTML, CSS, JavaScript, React.js, SQL, Linux

Tech Stacks:

- Java, Python

Cloud services:

- AWS Cloud Practitioner, AWS CLI

IDEs & Tools

- VSCode, Spring Tool Suite 4, IntelliJ, NetBeans, MySQL Workbench, GitHub

Frameworks, Environments, & Various Technologies:

- Spring Framework, Apache Tomcat, JSON, Django, Node.js, React.js, AJAX, Elasticsearch, Relational Database Management

Experience working within an Agile development methodology (Scrum)

Experience providing REST/SOAP APIs for user interface consumption.

Analytical skills for tracking/interpreting web and social media analytics.

Technical Writing and Formatting to create instruction manuals.

A self-starter and independent thinker with the ability to problem solve.

Microsoft Office Suite, Trello Software for communication and management.

Highly innovative, with a growth mindset with over ten years of proven ability to take initiative and move towards team vision and goals.

### **PROFESSIONAL EXPERIENCE:**

#### **Full Stack Developer - Freelance**

**November 2022 – Present**

I have built blog sites using HTML, CSS, and JavaScript for front end functionality, in a React.js environment, Java on the back end for login and registration validations as well as adding a Bcrypt service for hashing passwords and security. I maintain website content and updates and I have experience with Wordpress, JavaScript, responsive web design, version control using GIT. I possess a solid knowledge of social media best practices and content structure. I built databases using SQL to store and manage text, audio, and video entries along with the username and timestamps, both sites hosted using several AWS services.

## **Full Stack Java Developer - Pyramid Consulting**

**April 2022 – May 2022**

I have created functions, programs, and APIs using Java frameworks . I have also hosted applications using AWS, Cloud Computing, EC2 instance types, elastic block storage and S3, as well as monitor analytics with CloudWatch and CloudTrail. I am fluent in building migration, innovation, and database management using SQL. I typically use GitHub for source control and collaborative development. I have built entire full stack applications from the front end, back end, and the database, to hosting the stack on Amazon Web Services.

## **Bishop Motion Pictures – Managing Director**

**September 2010 – December 2020**

Successfully managed contract employees on various levels, delegated tasks and day to day operations, superseded productivity level while incorporated top notch interpersonal skills with all contractors involved in web development projects. Initiated relationships with vendors, financial institutions, and state offices with assurance, integrity, and dependability. Provided industry specific training and coaching to clients regarding web-based products. Developing key presentations for various team members and clients. Used HTML, CSS, JavaScript front-end web pages. Championed over 50 award winning projects by creating national and international marketing tools for multinational corporations to market their latest products including names like Adidas, Ford, Toyota, Motorola, Wal-Mart, Estee Lauder.

## **CERTIFICATIONS:**

Python Essential Training

- **Skills:** Python (Programming Language) · Web Development
- LinkedIn Learning

Python 3 Standard Library

- **Skills:** Python (Programming Language)
- LinkedIn Learning

Web Scraping with Python

- **Skills:** Web Scraping · Python (Programming Language)
- LinkedIn Learning

Creating a Serverless Application Using React in AWS

- **Skills:** Web Development · Amazon Web Services (AWS) · React.js · Node.js
- LinkedIn Learning

JavaScript Algorithms and Data Structures

- **Skills:** JavaScript, Web Development
- freeCodeCamp

Programming Foundations with JavaScript, HTML and CSS

- **Skills:** Web Design · HTML · Amazon CloudWatch · Web Development · Git · User Experience (UX) · Microsoft Office · Spring Framework · SQL · Front-End Development
- Duke University through Coursera

Python Data Structures

- **Skills:** Python Syntax And Semantics, Data Structure, Tuples, Lists, Dictionaries
- University of Michigan through Coursera

**EDUCATION:**

Coding Dojo, Full Stack Development, Bellevue, WA

Electrician Training, IBEW, Houston, TX - (2000)

Internship, MC Lighting, for Grip and Electric Training, Houston, TX - (2000)

Westwood College, Airframe & Powerplant Maintenance, Houston, TX - (1999)

Workflow Training for Red Digital Cinema, Houston, TX - (2009)
